

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Approve Plans and Specifications and Authorize Advertisement for Bids for the Alley South of Pine Street Wastewater Main Rehabilitation Project (Church Street to Hutchins Street); and Adopt Resolution Authorizing the City Manager to Award or Reject the Contract up to \$90,000 and Appropriate Funds

MEETING DATE: September 3, 2003

PREPARED BY: Public Works Director

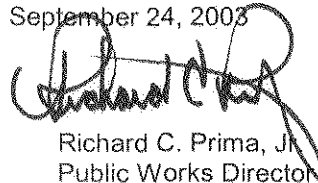

RECOMMENDED ACTION: That the City Council approve the plans and specifications for the above project and authorize advertisement for bids; and adopt a resolution authorizing the City Manager to award or reject the contract up to \$90,000 and appropriate funds.

BACKGROUND INFORMATION: This wastewater main rehabilitation project was initiated at the request of the California Regional Water Quality Control Board (Board) in a letter to the City dated February 2003. The letter requested the City take action to rehabilitate the wastewater main located in the alleyway behind 212 West Pine Street, between Church Street and Hutchins Street.

According to the Board letter, Guild Cleaners is currently in the process of installing a soil vapor extraction (SVE) system in the vicinity of the wastewater line. The Board believes the rehabilitation of the pipeline is critical to the successful pilot study and long-term operation of that SVE system, and it has requested the City proceed with the repair/rehabilitation of this pipeline as soon as practical.

Although this location was not a high priority for our replacement program, it is one we would do in the foreseeable future. In the spirit of cooperation with the State, staff completed design documents for rehabilitating 1,190 LF of existing 6-inch diameter wastewater main and reinstating 53 active service connections using trenchless methods. The City has chosen the machine spiral wound method and the deform/reform method as acceptable alternatives for this project. Both alternatives will minimize surface disruption and inconvenience to the residents and businesses within the project limits. The deform/reform method was successfully employed on the Water and Wastewater Main Replacement Project No. 1.

FUNDING: Wastewater Fund
Project Estimate: Less than \$90,000
Budgeted: Wastewater Infrastructure Replacement Program
Planned Bid Opening Date: September 24, 2003

Richard C. Prima, Jr.
Public Works Director

H. Dixon Flynn -- City Manager

RESOLUTION NO. 2003-157

A RESOLUTION OF THE LODI CITY COUNCIL APPROVING PLANS
AND SPECIFICATIONS AND AUTHORIZING ADVERTISEMENT FOR BIDS
FOR THE ALLEY SOUTH OF PINE STREET WASTEWATER MAIN
REHABILITATION PROJECT (CHURCH STREET TO HUTCHINS STREET);
AND FURTHER AUTHORIZING THE CITY MANAGER TO AWARD OR
REJECT THE CONTRACT UP TO \$90,000, AND APPROPRIATING
FUNDS FOR THE PROJECT

=====

WHEREAS, this wastewater main rehabilitation project was initiated at the request of the California Regional Water Quality Control Board (Board) in a letter to the City of Lodi dated February 2003; and

WHEREAS, the letter requested that the City take action to rehabilitate the wastewater main located in the alleyway behind 212 West Pine Street, between Church Street and Hutchins Street; and

WHEREAS, according to the letter, Guild Cleaners is currently in the process of installing a soil vapor extraction (SVE) system in the vicinity of the wastewater line. The Board believes the rehabilitation of the pipeline is critical to the successful pilot study and long-term operation of that SVE system, and it has requested that the City proceed with the repair/rehabilitation of this pipeline as soon as practical; and

WHEREAS, although this location was not a high priority on the replacement program, it is one that would be done in the foreseeable future. Staff has therefore completed the design documents for rehabilitating 1,190 LF of existing 6-inch diameter wastewater main and reinstating 53 active service connections using trenchless methods; and

WHEREAS, in order to expedite this project, staff recommends that the City Council approve the plans and specifications and authorize advertisement for bids for the Alley South of Pine Street Wastewater Rehabilitation Project (Church Street to Hutchins Street), authorize the City Manager to award or reject the contract up to \$90,000.00, and further appropriate funds for this project.

NOW, THEREFORE, BE IT RESOLVED that the Lodi City Council does hereby approve the plans and specifications and authorize advertisement for bids for the Alley South of Pine Street Wastewater Rehabilitation Project (Church Street to Hutchins Street) and authorize the City Manager to award or reject the contract up to \$90,000.00; and

BE IT FURTHER RESOLVED that funds in the amount of \$90,000.00 be appropriated from the Wastewater Fund for this project.

Dated: September 3, 2003

=====

I hereby certify that Resolution No. 2003-157 was passed and adopted by the City Council of the City of Lodi in a regular meeting held September 3, 2003, by the following vote:

AYES: COUNCIL MEMBERS – Beckman, Howard, Land, and Mayor Hitchcock

NOES: COUNCIL MEMBERS – None
